

~~Sub E1~~
a control program responsive to said monitor to select which of said plurality of servers will execute said communications services;

~~Sub E2~~
wherein at least one of said plurality of servers comprises an intervening server and is adapted to intercept a supplementary communications service request to determine whether execution of said supplementary communications service request is carried out by a server other than an original requested server and redirect said supplementary service communications request to said other server.

~~Sub E2~~
5. (Thrice Amended) A communications network resource usage optimization system in an interconnected network system, comprising:

a plurality of servers in the interconnected network system adapted to execute supplementary communications service requests;

a monitoring unit connected to each of said plurality of servers to receive and decode supplementary service information for the supplementary communications services being requested; and

a control program responsive to said monitor decoding supplementary service information adapted to select which of said plurality of servers will execute said communications services, said control program further enabling said optimization system only under predetermined conditions;

wherein at least one of said plurality of servers comprises an intervening server and is adapted to intercept a supplementary communications service request to determine whether execution of said supplementary communications service request is carried out by a server other than an original requested server and redirect said supplementary service communications request to said other server.

~~Sub E3~~
9. (Thrice Amended) A method for controlling communications network resource usage in a communications network, comprising:

enabling supplementary communications service requests;
intercepting said supplementary communications service requests at an intervening server before execution by a destination server;

receiving and decoding supplementary service information for said supplementary communications service being requested; and
